

Building with nature!

SPRING FAIR FOR CONSTRUCTION, ENERGETICS, MUNICIPAL SERVICES AND TRADE

INTERNATIONAL

POMLADNI SEJEM

26. – 29. 3. 2015
Gornja Radgona
Slovenia

POMURSKI SEJEM

www.pomurski-sejem.si

FOUR PROSPECTIVE AREAS ON THE CROSSROADS OF FOUR COUNTRIES

Dear Sir or Madame,

We invite you to build a sustainable, clean, renewable and enterprising future at the Spring Fair in Gornja Radgona from 26th to 29th March 2015.

At the crossroads of four countries the Spring Fair will connect four areas that are indispensable for successful development and society.

The construction fair MEGRA will provide the know-how, tools, machinery and materials for the rational construction of new buildings and the reconstruction of existing buildings.

The energetics fair ENGRA will promote the introduction of renewable sources of energy and energetic savings.

The fair of Municipal Services, Landscaping and Ecology KOGRA will expand green infrastructure, protect and rehabilitate the environment and protect the right to safe drinking water.

The Pomurje Craft- Business fair POS will strengthen the importance of exchanging craftsmanship know-how and smart specializations in crafts.

The concurrent fair of sustainable technologies and green lifestyle GREEN will integrate innovative designers, service providers, companies, scientific institutions, government and non-governmental institutions and consumers, society and nature friendly technologies, know-how, products and services.

They will at the same time all call for investments and use of European funds for the development of transport and information technology infrastructure, environmental protection, energy and moreover building renovations, introduction of renewable energy sources and upgrading of the national energy system and local energy self-sufficiency.

Along with the interesting exhibition content, target visitors from Slovenia, Austria, Croatia and Hungary will be attracted to the fair by its out-standing business and professional meetings and its varied accompanying events.

Warm-up the economy in a sustainable manner through your participation in the Spring Fair and at the same time ensure yourself greater international recognition and commercial success.

You are kindly invited!

President of the Management Board
Janez Erjavec

GREENING OF TRADITIONS

SUSTAINABLE DEVELOPMENT

The construction fair MEGRA has taken place in Gornja Radgona for more than 30 years. It has also been a member of the International Federation of Fairs UFI since 2000. In recent years, under auspice of the Spring Fair, it was supplemented by: the energetics fair ENGRA, the municipal services fair KOGRA and the Pomurje Craft- Business fair POS. In 2015, the Spring Fair will be joined for a second time by the sustainable technologies and green lifestyle fair GREEN. The interlaced up-to-date and prospective fair content brings positive business synergy effects and the greatest attention of the business, professional and general public.

A CROSSROADS OF CONSTRUCTION WORK AND PROFESSIONS

The Spring Fair of construction, energetics, municipal services and crafts has become the central state and most important fair of its kind in the neighbouring region of four countries. With the associated fair of sustainable technologies in 2014 on an area of 10.000 m² they presented 220 exhibitors from 18 countries to 10.000 targeted visitors. More than 200 articles were published in Slovenian and European media.

SOURCE OF INFORMATION

Cooperating in the organization of the fair and the accompanying program are umbrella branches, chambers, professional and governmental institutions. The professional, business and rank meetings unveil new business opportunities and strategic insights into the future. Competitions and bestowal of awards for quality increase the reputation of construction and builders. Visitors are provided daily with free construction, energetics, municipal services and investment advice. At the fair young people learn about construction professions, craft skills and employment opportunities.

GREEN

2nd International Fair of Sustainable Technologies and Green Lifestyle GREEN
will join the fairs MEGRA, ENGRA, KOGRA and POS.

Fair focus:

- Energy efficient construction and renovation of buildings
- Anti-flood measures

EXHIBITION PROGRAMME

CONSTRUCTION

- city planning
- designing
- engineering consultation services
- construction of buildings
- engineering construction works
- special construction works
- restoration and renovation
- landscaping
- geotechnical works

CONSTRUCTION MATERIALS

- bonding agents and industrial mortars
- construction elements
- pre-fabricated construction elements
- insulation materials
- screeds and pavements
- restoration materials
- materials and elements for the design and equipment of gardens, playgrounds and parking areas

CONSTRUCTION CHEMISTRY

- paints, varnishes, coatings
- sealing masses, adhesives

BUILDERS' JOINERY AND CARPENTRY AND CONSTRUCTION ELEMENTS

- windows, doors, shades
- winter gardens
- staircases, protective fences and balcony railings
- chimneys

BUILDING MACHINERY, EQUIPMENT AND TOOLS

- machinery and equipment for separation, concrete and asphalt plants
- construction machinery and facilities
- freight and special vehicles
- planking and supporting systems, scaffolding
- tools
- geodesic measurement gadgets and instruments

MODERN HOUSES

- low energy and passive construction
- prefabricated wooden buildings
- construction with aerated concrete and bricks
- eco-construction
- energy improvement of buildings
- materials and systems for low energy construction
- modern facade systems
- energy efficient windows
- advanced thermal insulations
- shades and optimum use of daylight

ROOF TRUSSES AND ROOFING

- roof constructions
- roofing, gutters

SECOND HAND CONSTRUCTION AND AGRICULTURAL MACHINERY, EQUIPMENT AND TOOLS FAIR

SECURITY, PROTECTION, RESCUE

- burglar-proof doors and windows
- fire-fighting equipment
- anti-flood equipment
- alarm equipment and systems
- equipment for self-protection
- equipment for facilities
- vehicles, upgrading and equipment

CONSTRUCTION SITE EQUIPMENT

- containers
- sanitary cabins
- construction site lighting
- fences and protective nettings

ELEVATORS

- for freight, passengers and disabled people
- lifting equipment

CONSTRUCTION INVESTMENTS

BUSINESS AND PROFESSIONAL EVENTS

- international business meetings between entrepreneurs
- expert consultations
- round tables

ACCOMPANYING EVENTS

- pupils' competition in building
- presentation of the deficiency of vocations
- presentation of construction education and pupils' skills
- free construction advice for visitors

Fair focus:

- Local energy self-sufficiency
- Energy saving

EXHIBITION PROGRAMME

HEATING, VENTILATION, AIR CONDITIONING

- heating devices and systems
- ventilation systems and equipment
- air conditioning systems and equipment

RENEWABLE ENERGY SOURCES (RES)

- solar power plants and equipment
- thermo-solar systems
- wind energy
- hydropower plants
- geothermal energy
- biomass
- biogas and waste
- heat pumps
- fuel cells
- CHP (cogeneration of heat and power energy)

ENERGY DEVICES

- heat conductors
- cooling towers
- boilers
- ejectors

FUEL (ENERGY-GENERATING PRODUCTS)

ELECTRICAL DEVICES

- power transfer and distribution equipment
- cables and installation wires
- switching and measurement technology
- power and electronic components
- power device protection and regulation products
- batteries and accumulators
- tools
- power management systems and equipment

E- MOBILITY

- electric cars
- electric motorcycles
- charging stations

INDOOR AND OUTDOOR LIGHTING

- energy efficient lighting
- LED lighting
- energy efficient public lighting
- home automation
- solar lighting and appliances

PROJECT PRESENTATIONS

- RUE and RES in public buildings
- municipal and national RUE (rational use of energy) and RES (renewable energy sources) projects
- European projects
- examples of good practice

FINANCING AND ADVISORY NETWORK FOR RES AND RUE

- EU funds - grants
- energy engineering

BUSINESS AND PROFESSIONAL EVENTS

- cross-border business meeting on the theme of renewable sources of energy
- professional consultations and round tables
- free financial and energy advice for visitors

Fair focus:

- Municipal infrastructure construction
- Small wastewater treatment equipment

EXHIBITION PROGRAMME**MUNICIPAL INFRASTRUCTURE**

- equipment and technology for the maintenance of municipal infrastructure

**TRANSPORT NETWORK
AND PARKING AREAS****PUBLIC LIGHTING****LANDSCAPING**

- consultancy, planning and landscaping
- landscaping materials and elements
- landscaping machinery and equipment
- trees and other vegetation
- watering and irrigation systems for green areas
- garden furniture, fences and other equipment

EQUIPMENT FOR THE HOME

- small water treatment plants
- tanks for collecting rainwater
- room and garden composter
- water purifiers
- domestic grinders for kitchen garden waste

EQUIPMENT FOR PUBLIC AREAS

- information and orientation systems
- kiosks, vending machines
- bicycle stands
- tree protection, flower boxes
- public and portable toilets

- public benches, chairs, tables

- equipment for elderly and disabled persons

- other equipment

**LEISURE, SPORTS AND
EDUCATIONAL CENTRES**

- equipment for sports centres
- playground equipment

- school equipment

- bathing places, swimming pools

**CHIMNEY-SWEEPING
SERVICES AND EQUIPMENT****EQUIPMENT AND SERVICES
FOR THE MAINTENANCE OF
PUBLIC AREAS**

- garbage cans and containers

- machinery and equipment for cleaning of public areas

- winter service

- cleaning and maintenance service providers

WASTE MANAGEMENT

- equipment and machinery for waste collection and recycling

- waste recovery and equipment

- equipment and installations for incineration of waste

- equipment and installations for waste disposal

- public and household bins for separate collection of waste

WATER MANAGEMENT

- preparation and drinking water supply

- discharge and purification of waste and drainage water

ENVIRONMENTAL PROTECTION

- equipment for protection against adverse environmental impacts

- air and flue gas purification

- land rehabilitation and decontamination

- watercourse purification and planning

- measurements, regulation and control systems

- environmental engineering

**SOFTWARE, INFORMATION
SYSTEMS****PRESENTATION OF PROJECTS,
INSTITUTIONS AND
ORGANISATIONS****BUSINESS AND PROFESSIONAL
EVENTS**

- international expert consultation with municipal topics

- environmental consultation

- business meetings

- lectures, workshops and round tables

- expert advice for visitors

**Fair focus:**

- Business and craft specialization

EXHIBITION PROGRAMME**CRAFTS IN CONSTRUCTION**

- construction work
- installation works
- drywall installation
- drywall work
- construction materials
- roofing

**FINISHING WORKS IN
CONSTRUCTION**

- painting works
- tinsmith works and roofing
- ceramic works
- parquet flooring
- laying of floor coverings
- stove-maker's
- metal works
- joiner's work
- glazier's work
- painting works and sign painting

MAINTENANCE

- cleaning buildings
- chimney sweeping

**INSTALLATIONS**

- electrical installations
- water installations
- hydro installations
- heating installations
- air-conditioning of buildings
- machine installations

LANDSCAPING

- floriculture and horticulture
- stonecutting
- cement works
- terrazzo making

OTHER FIELDS OF TRADES

- processing of plastics and tyres
- funeral services

ARTS AND CRAFTS PRODUCTS**BUSINESS AND PROFESSIONAL
EVENTS**

- meetings of craftsmen and entrepreneurs from Slovenia, Austria, Croatia and Hungary

- State competition of young metal workers and roofers

- craftsmen's street with presentations of work, services and products by members of the Chamber of Craft and Small Business of Slovenia

- presentation of craft professions and advice on education

- presentations of craft activities and useful information on establishing a new enterprise
