

Future of Building 2021 | VIRTUAL

Conference, Brokerage Events & virtual project visits

23 March 2021 | [Future of Building 2021 | Virtual - Home \(b2match.io\)](https://fob2021.b2match.io)

Wirtschaftskammer Österreich, Wiedner Hauptstraße 63 | 1045 Wien

Advantage Austria from EEN-host organization WKÖ together with the [Enterprise Europe Network Austria](#) organize an exclusive congress and b2b matchmaking platform for Austrian and international companies as well as for decision makers operating in the construction sector. Join us and learn about the latest technologies and materials, share new project ideas, and find international cooperation partners for new business opportunities.

After the Future of Building Brokerage Event, you are warmly welcome to participate in the **Vienna Congress on Sustainable Building BauZ!** that takes place from 24-25 March 2021. Please note that a separate registration is necessary for [BauZ!](#)

→ 18 March 2021 – Registration ends!

<https://fob2021.b2match.io>

02 March 2021 – Booking of b2b opens

23 March 2021 – Event starts

Good to know

The visitor ticket is **free of charge** for both Austrian and foreign participants attending Future of Building 2021 (#futureofbuilding2021). The conference language is **English**. In 2019 the organizers welcomed 1,800 visitors and a record number of 3,100 b2b meetings demonstrating the success story of this event series. The conference's image video and pictures from 2019 can be watched under <https://buildings2019.b2match.io>.

The **conference takes place online** and will be broadcasted from Vienna. Vienna is seen as an example of global best practice for smart city solutions and the symbiosis of historical heritage and modern [green] architecture und high tech solutions.

Conference Topics and target groups

- Smart City, modern urban planning
- Intelligent and connected buildings
- New construction methods and robotics
- New building materials / components and assemblies
- Energy efficiency (zero, plus, passive houses)
- Sustainable and green architecture
- Timber / wood construction
- Natural and zero emission materials
- Roads & tunneling, traffic infrastructure

We are very much looking forward to meeting you virtually at #futureofbuilding2021 #fob #fob2021!
