

BIOTECHNOLOGY IN

# FOOD & FEED

## 20.5.2025

Welcome to the acib minisymposium  
to foster collaboration between  
industry and academia.

13-17 UHR • MEERSCH-  
SCHLÖSSCHEN, GRAZ

Our agenda combines **insightful presentations** from leading companies and innovative startups, a keynote address focusing on advances in feed biotechnology, and **cutting-edge scientific talks**.

The highlight of our event will be a **dynamic moderated panel discussion** where delegates can engage directly with speakers and experts to exchange ideas, challenge perspectives and explore innovative solutions. Together, let us bridge the gap between research and application to **shape the future of sustainable food and feed systems**.
